Rail Trains

RAIL FEATURES

There is nothing beyond our capability.

We offers the widest range of rail trains available in the world today. Our standard range offers trains from 15" to 3',0" gauge, capable of hauling as many as 320 passengers with our largest locomotive, the VIYAR, and 144 adults with our most popular locomotive, the MODEL R. Other locomotives in our range include the Texan & Arrow River providing a lower passenger capacity at a corresponding price advantage.

All our range can be customised to suit each client's venue and we work closely with architects and designers to achieve the perfect transport solution.

- High quality finish & detail
- Use of commercially proven mechanical components throughout
- Authentic steam sound and smoke effects
- Variety of coach options available including open, semi & fully enclosed
- High passenger capacity
- Fail safe air braking throughout
- Trains built to customer's individual specifications
- Optional wheelchair accessibility
- TUV approvals where required
